Experience

Digital Accessibility design specialist | Shared Services Canada
2022 to 2024

- Integrated front-end and back-end practices to the web development of the Digital Accessibility Toolkit website, an open-access resource on GitHub for over 100,000 Government of Canada employees with the use of Node.js, 11ty, HTML, CSS and JavaScript.
- Conducted rigorous testing and implemented robust security and quality controls throughout the project life cycle.
- Demonstrated expertise in planning, designing,and troubleshooting code to optimize the project's performance.
- Audited public and private sector ICT products for accessibility standards conformance for compliance to Canadian law.
- Wrote technical documentation and guides outlining digital accessibility user experience techniques and best practices for Microsoft Word, PowerPoint, and Excel.

Redesign Project Coordinator | Mirror Mountain Film Festival
2023

- Led the team in the redesign of Mirror Mountain Film Festival's website on a 12-week project, indicating leadership and project management skills.
- Managed and streamlined team tasks,documentation, and deadlines, resulting in a 20% reduction in project delivery time.
- Optimized website's expected discoverability by50% by analyzing and using a combination of project charter, product vision board, risk assessment, and milestone document, analytics and keywords management.
